

Kevin Hall

The one and only
Magic Maniac!

"You're going to Vegas!"
Howie Mandel - America's Got Talent

"I laughed so hard my sides hurt!"
- 3M Corporation

A bit about Kevin Hall:

Growing up, Kevin didn't realize how unique his family was. He thought every family had 15 kids. He thought everyone's Mom had her own Musical Zanygram business. He thought all families were involved in show business too. However, while his many siblings focused on talent contests, auditions and cutting albums, Kevin earned a degree in engineering.

"Kevin turned our boring banquet into an all out party"
- Best Buy

As an award winning Super Computer designer, he found he enjoyed presenting technical data to Fortune 500 companies across the US and Canada. Then he started taking acting, dancing and improv lessons. As Kevin says "I was getting a patent in integrated circuit design during the day, and dancing with flaming machetes at night!" While he was highly respected and successful in the tech industry, Kevin learned something that changed his life, "You Can't Fight Showbiz!"

So Halls of Entertainment Inc. was born and now they engage and delight audiences the world over.

"Janet changed her costume in less than 1 second. Unbelievable!"
- Grand Lido Resorts

Kevin Hall is not just another super computer designer turned entertainer. Oh sure, he has the great comedy, mysterious magic and entertaining speaking skills you'd expect. However it's when he launches into fire twirling, acrobatic dancing and singing (sometimes all in the same show!) that you start to realize just how talented he really is!

He's been called the *Magic Maniac* for his outrageous comedy and his uncanny ability to get the audience involved. In fact, one of his biggest success stories is his unique show titled ... "You're Amazing!" Kevin explains it this way.

"Most magicians are on stage showing you how amazing and incredible they are. I focus on how amazing the audience is! I love getting kids on stage and making heroes of them. I give them some impossible task, something that no one thinks they can do. When they suddenly succeed, everyone is applauding for them. What an ego boost! You should see their eyes light up with delight. I don't ignore the parents either. It disturbs me that many of the messages we see today erode a parent's influence over their children. I strive to improve a parent's stature in front of the kids. It's amazing the way the kid's eyes practically pop out of their heads when they see their moms or dads (or teachers) turning into heroes on the stage!"

Kevin has a simple message. "If you get a good education and follow your dreams, anything is possible!" **With Kevin, everyone's part of the fun.**

Total entertainment that has dazzled audiences everywhere!
